Welcome

Congratulations! By considering music education for your child at an early age, you have taken a first step toward bonding musically with your child and enriching your family life with active music-making.

Children are naturally drawn to music, which will make your time with them in Musikgarten both fun and beneficial.

Why Musikgarten

The Plan – Only Musikgarten offers a comprehensive, sequential plan for the musical development of your child from birth through beginning piano. Each of our six courses stands on its own and fits the developmental needs of the child. Class time is educational, fun and purposeful.

The Teachers – Your Musikgarten teacher is a highly trained professional with classroom and field experience in early childhood music education and child development.

The Curriculum – Musikgarten's programs are based on meeting the developmental needs of children as they grow. Favorite songs, stories, and dances are revisited throughout – building on what each child has mastered and enjoyed – making successful learning easier.

Family Involvement - You will receive CDs, family activity guides and instruments to continue the bonding and fun of music with your child at home.

Family Music for Babies

Newborn – 18 Months

Designed for parents and their babies to take together. This 30-minute weekly class helps you learn how to play musically with your baby.

Musical play activities:

- Increase your child's curiosity about music.
- Develop listening skills and sense of beat.
- Establish a foundation for singing and musical thought.
- Help you form a closer bond with your child.

Features:

- Bouncing and rocking songs.
- Wiggle and peek-a-boo games.
- Superb CD recordings by a fine children's choir and outstanding instrumentalists, together with a book describing the activities and games to play with baby.
- A lovely cloth instrument pouch with rhythm sticks, Musikgarten rattle and colorful scarf.

Family Music for Toddlers

15 Months – 3½ Years

Participate with your toddler for 30 minutes each week in singing, chanting, moving, dancing, listening and playing simple instruments.

Musical play activities:

- Help develop a strong musical bond with your child and closer family ties.
- Bridge the natural connection between music and movement.
- Enhance your child's musical aptitude and listening abilities.
- Lay the foundation for singing and vocal development, listening skills, and purposeful movement.

Features:

- Movement activities for coordination, body awareness, exploration of space, body control and the pure joys of movement.
- Folk songs for singing, dancing and listening.
- Focused listening examples from both daily life and music instruments.
- Instruments to explore: rhythm sticks, jingles, rattles, drums, and resonator bars.
- 4 wonderful semesters, each with a 60-minute CD, a parent activity book and an instrument or scarf to use at home.

Cycle of Seasons

Ages 3-5

Celebrate your child's love of nature and growing independence through activities involving the four seasons (45 minute class).

Musical play activities:

- Nurture 3 year olds' ability to use language and participate in dramatic play within a musical context.
- Develop listening, focused attention, imagination, creativity, and self-expression.

Features:

- Singing, chanting, moving, focused listening, musical games.
- Exploring musical instruments, creative movement and storytelling.
- Family packets for each season of the year. Packets include outstanding CDs, full color illustrated cards for listening activities, and a parent activity book, all in a cloth Musikgarten pouch.

Benefits of Early Childhood Music

Music's melodic and rhythmic patterns awaken and stimulate neural pathways in the brain that help develop memory, math skills, and powers of abstract and creative thinking.

Musical touches all spheres of development:

Language	Confidence
Self Expression	Self Esteem
Concentration	Music Playing
Social Interaction	Creativity
Fine Motor Skills	Family Involvement
Listening	Poise
Problem Solving	Bonding
Teamwork	Voice Expression
Goal Setting	Family Interaction
Coordination	Emotional Development

Overall, music activities are ideal for your growing child.

- Music immerses the child in language.
- Evokes movement.
- Stimulates the brain.
- Fosters physical coordination.
- Develops listening skills, the foremost necessity for learning.

All in a group setting that builds community
